# SWISSCOOL UX 700 AF

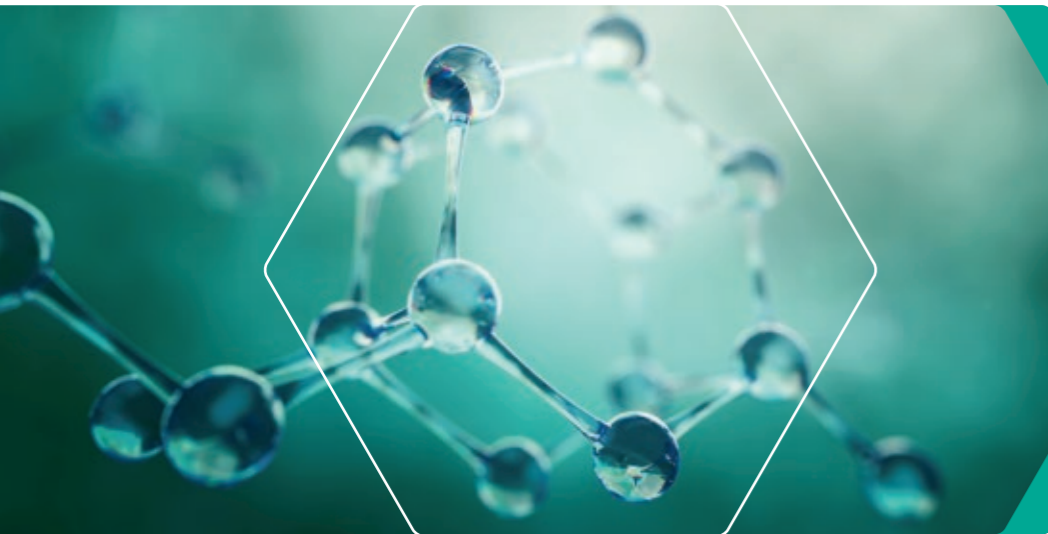

AMINE-FREE WATER-MISCIBLE METAL WORKING FLUID

# SWISSCOOL UX 700 AF

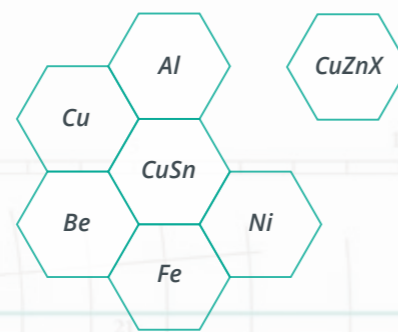

FOR MAXIMUM PRODUCTIVITY AND PROCESS RELIABILITY WITH LOW OPERATING COSTS

The coolant SWISSCOOL UX 700 AF combines several positive properties thanks to its new formulation. Thanks to the high-quality ingredients and state-of-the-art technology, top results are achieved when machining materials such as non-ferrous metals, aluminium and steel.

## HIGHLY EFFECTIVE CORROSION PROTECTION

Enables a wide range of applications. The composition of SWISSCOOL UX 700 AF protects the machine and workpiece from corrosion and enables machining of non-ferrous metals, critical aluminium alloys and steel without any problems.

## LOW CONSUMPTION

Thanks to its technology, SWISSCOOL UX 700 AF enables a very good rinsing behavior, which keeps the machines clean and reduces consumption to a minimum.

## COMPLIES WITH CURRENT LEGISLATION

The new formulation is free of boric acids, amines and formaldehyde depot substances and is therefore very mild. This ensures excellent compatibility for human, materials and machines.

## OPTIMUM PROCESS RELIABILITY

The new emulsifier system does not only allow to form a very stable emulsion, but also increases the lubrication performance. This creates the basis for process-reliable work at water hardnesses of 10°dH to 25°dH.

## EXCELLENT BIOSTABILITY

The complex structure of the new formula hinders nutrient intake by bacteria, thus naturally inhibiting their growth.

# INDUSTRIALLINE

STRUCTURE YOUR PRODUCTION PROCESS  
IN AN AGILE AND EFFICIENT WAY WITH MOTOREX!

EXPERIENCE SINCE 1917

## INDUSTRIALLINE | A wide range of products

- Spindle oils and coolants
- Water-miscible cutting fluids
- Cutting oils
- Grinding fluids
- Forming oils
- EDM oils
- Slideway oils
- Anti-corrosion fluids
- Cleaners
- All-purpose sprays
