

SWISSCUT DECO EX

HSC CUTTING OIL FOR THE MEDICAL AND
WATCHMAKING INDUSTRY

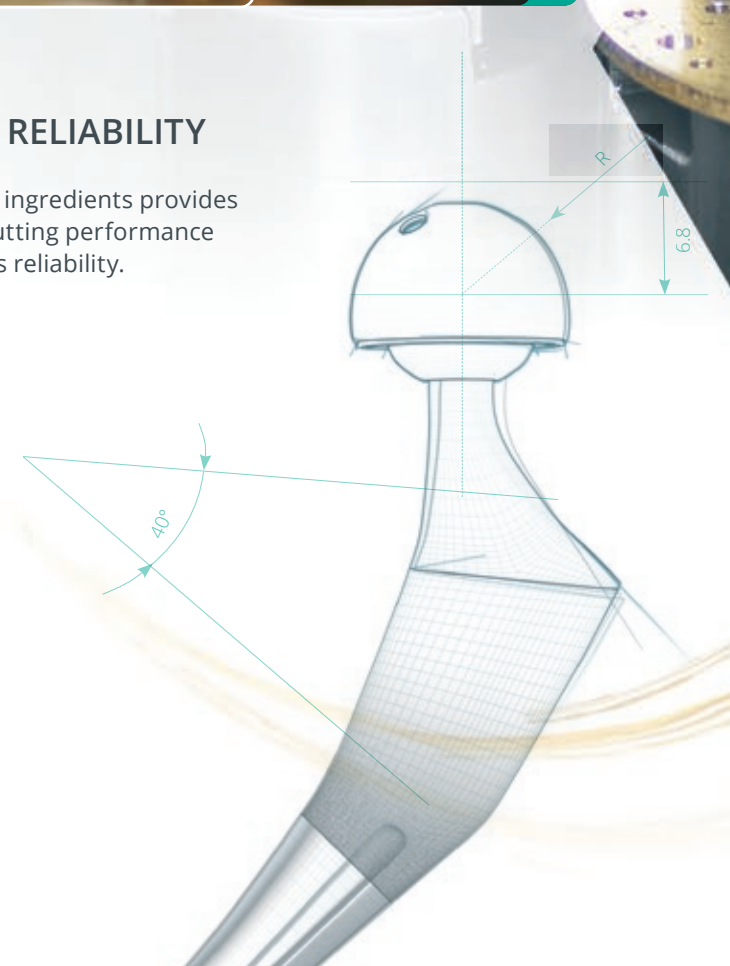

SWISSCUT DECO EX

SWISSCUT DECO EX is a high-performance cutting oil of the latest generation. When selecting the ingredients, care was taken to ensure an excellent human and machine compatibility. SWISSCUT DECO EX is suitable for machining all metallic materials.

OPTIMUM PROCESS RELIABILITY

The selection of high-quality ingredients provides SWISSCUT DECO EX a high cutting performance resulting in optimum process reliability.

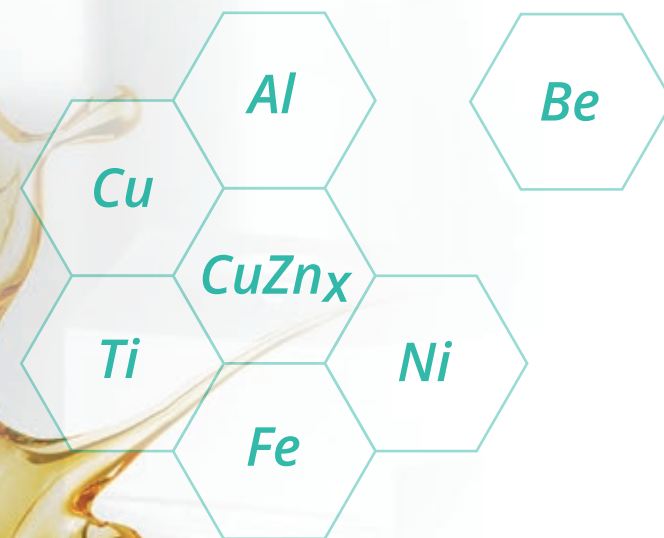

BEST QUALITY – TESTED AND CERTIFIED

In the medical industry, excellent biocompatibility is a key issue when using cutting oils for the production of implants. SWISSCUT DECO EX is non-cytotoxic according to ISO 10993-5, i.e. the influence of the processing medium on the viability of body cells is determined in this demanding test. Cutting fluids with a viability of somatic cells of more than 70% are classified as non-cytotoxic; SWISSCUT DECO EX attains an excellent performance of more than 88%.

LOW CONSUMPTION

The SWISSCUT DECO EX provides outstanding rinsing behavior, keeping machines very clean and reducing consumption to a minimum.

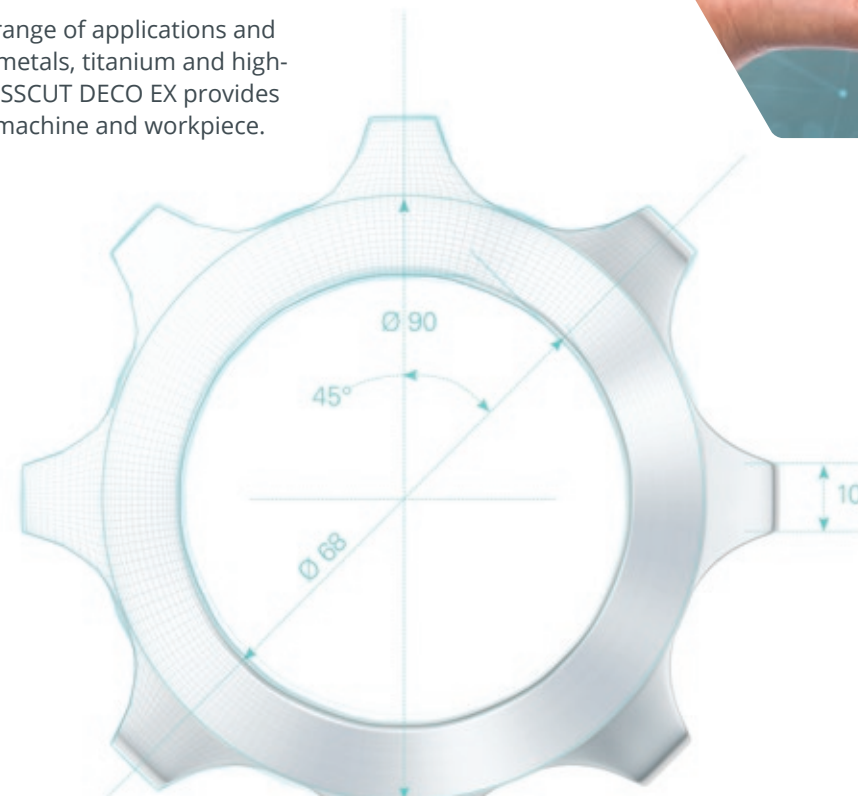

HIGHLY EFFECTIVE CORROSION PROTECTION

SWISSCUT DECO EX covers a wide range of applications and enables machining of non-ferrous metals, titanium and high-alloy steels without any issues. SWISSCUT DECO EX provides optimum corrosion protection for machine and workpiece.

CONFORM TO CURRENT REGULATIONS

SWISSCUT DECO EX is free of chlorine, zinc and other undesirable ingredients. This results in an excellent compatibility for human, materials and machines. Ideal conditions for a safe machining process
